## ABOUT KALLOS

Founded in January 2019, the mission of the Kallos Chamber Music Series ( [www.kalloscms.org](http://www.kalloscms.org)) is to cultivate a thriving community around a vibrant, intimate, and profound chamber music experience. Hailed as "resonant with the time, and offering understanding, catharsis, and consolation" by the New Haven Independent, KCMS is a destination for captivating programs, extraordinary music-making, and wonderful moments with family and friends. KCMS hosts international musicians in our artists-in-residence venue, the historic New Haven Lawn Club, to offer live performances of the highest artistic level to the New Haven community.

The Ancient Greek word "káλλος", meaning “beauty”, evolved among Greek philosophers, writers and artists to convey the ideal of physical beauty together with beauty and nobility of the mind and soul. This beauty can be present in all aspects and stages of life, manifested by individuals experiencing and observing beautiful harmony.

The Kallos Chamber Music Series strives to offer the shared experience of beauty for both artists and audiences through chamber music. When everything works together - the venue, the artists, the audience, the music - chamber music becomes magical and Kallos is achieved.
